1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The claim identifier for Claim 6 has been changed from "(Currently Presented)" to "(Currently Amended)" in accordance with current amendment requirements.

2. The following is an examiner's statement of reasons for allowance: the closest prior art, Konishi et al (USPN 5,891,531), teaches a thin fluoride film on a substrate and a process for producing the thin film of fluoride on a substrate wherein the process comprises reacting a gaseous fluorinating agent such as  $\text{NF}_3$ ,  $\text{SF}_6$  and  $\text{CF}_4$ , and gas of volatile organometallic compound, wherein it is preferred that barium is comprised in the composition of the thin film of the fluoride by using a volatile organobarium compound in which at least one organic molecule having 3 to 12 heteroatoms which can coordinate to one barium ion is coordinated as one of the volatile organometallic compounds with examples of the heteroatom including oxygen, nitrogen and sulfur. However, Konishi et al do not teach or suggest that the fluoride layer is represented by the formula  $\text{MO}_x\text{F}_y$  as instantly claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
